IN-STATE TUITION for NON-CITIZEN RESIDENT TEXANS

WHAT YOU NEED TO KNOW

What is HB 1403?

In 2001, the Texas Legislature passed HB 1403, also known as the Texas Dream Act, which extends in-state tuition and grant eligibility to non-citizen residents of the state.

In-state tuition and state financial aid programs are available to residents of Texas. A student that is not a U.S. citizen or permanent resident is considered a resident of Texas for higher education purposes if they can demonstrate:

- They lived in Texas during the three years before graduating from high school or receiving a General Equivalency Diploma (GED);
- They lived in Texas the year before enrolling at a Texas public college or university; AND
- They sign an affidavit declaring their intention to apply for Legal Permanent Resident status as soon as they are able.
- HB 1403 affects non-citizen students who are documented and students who are undocumented.

How does HB 1403 affect the ability of Texas citizens to get into Texas colleges?

HB 1403 does not impact admission decisions in any way. All students regardless of immigration status compete equally for admission to Texas institutions of higher education.

How many students benefit from HB 1403?

In 2013, 24,770 non-citizen resident students out of 1,303,684 total students (1.9 percent of total students) paid in-state tuition under HB 1403. This includes Texas public universities, public community, technical and state colleges, and public health related institutions.²

1.9% NON-CITIZEN RESIDENT STUDENTS
How many non-citizen resident students receive state financial aid, loans and grants in Texas?

Only 4,109 non-citizen resident students (0.32 percent of total students) received state-authorized loans, state-supported grants, and other institutional/non-state financial aid in 2013.\(^3\)

How many non-citizen resident students receive state-supported grants in Texas, and how much do they receive?

Only 2,318 non-citizen resident students received state-supported grants (1.8 percent of all students who received grants), at a cost of $9.52 million.\(^4\)

In total, over $430 million in state-supported grants was distributed to over 130,000 students across Texas in 2013.\(^5\)

How do Texas Dream Act students and other immigrants contribute to the Texas economy?

- Non-citizen resident students paid $51.6 million in tuition and fees in 2013.\(^6\)
- In 2010, undocumented immigrants in Texas paid an estimated $1.6 billion in state and local taxes. In part, these taxes help support Texas institutions of higher education.\(^7\)
- In 2011, immigrants of all status contributed $65 billion in economic output to the state in terms of wages, salary, and business earnings.\(^8\)
