Investing in Our Future

CHANDRA VILLANUEVA

PROGRAM DIRECTOR – ECONOMIC OPPORTUNITY, CPPP

VILLANUEVA@CPPP.ORG
@CHANDRAKUS
We believe in a Texas
that offers everyone the chance
to compete and succeed in life.

We envision a Texas
where everyone is healthy, well-educated,
and financially secure.

Instructional Spending Lags Behind Pre-recession Levels

Source: TEA PIEMS Financial Data, adjusted for 2016 dollars. Instructional spending includes basic education, special education, career and technical education, bilingual education, and accelerated education.
Adequacy: Resources to Meet the Standards in Place

Spending Drastically Declined for Kids Who Need the Most Support

Source: TEA PIEMS Financial Data. Elementary school campuses placed in quartiles based on number of students participating in the federal free or reduced lunch program.
Remodeling the System

What does it mean to “fix” school finance?

Fixing school finance means remodeling our outdated system by adding new state revenue that is directed toward the kids that need it the most, and removing old provisions that are not based actual needs or established costs.

Money matters in education and accomplishing these goals will require the state to increase and maintain its share of school funding. Fixing school finance is not just replacing local property taxes with state dollars or tying funding to student performance.
Remodeling the System

Recommendation 1: Strengthen the Foundation

- Increase the Basic Allotment to a level adequate to meet current educational standards.
- Adjust the Basic Allotment for inflation ($2.8 Billion)
Recommendation 2: Update the Formulas

Update Positive Formula Elements

• Funding for Special Student Populations – most added in 1984, have not been adjusted since (low-income students, ELL, Special Education).

• Cost of Education Index – adjusts for regional and other costs outside the district control, based on 1991 data.

• Transportation Allotment – based on 1987 cost of gas and school buses.

Remove Elements that are Not Cost Based

• High School Allotment and New Instructional Facilities Allotment – per student funding not tied to cost or district need.

Remodeling the System

Recommendation 3: Find New Revenue

Develop a strong revenue system that meets today’s needs and prepares Texas for future growth.

- Scrub the tax code
- Improve commercial appraisals
- Maximize federal funding
- Expand the sales tax base
- Increase and expand “vice” taxes
- Stop cutting taxes
