Since its founding in 1985, Every Texan (formerly the Center for Public Policy Priorities) has leveraged public policy to expand opportunity and equity for Texans of all backgrounds. Every Texan is an independent policy research and advocacy organization, with a focus on improving equitable access to health care, food security, education, financial security, and voting rights. We apply a racial equity and socioeconomic lens to our research and data to humanize our analysis and shape effective, people-centered policy solutions. We work with our partners to help the public and policymakers make choices that benefit all Texans, regardless of their race, class, gender, zip code, or any other factor.
