Legacy

OCTOBER 30, 2025

2025 Sponsorship Package
Forty years building the case for equity.

EVERY TEXAN INVITES YOU TO BE
A PART OF

Legacy

Originally founded by the Benedictine Sisters of Boerne, Texas in 1985, Every Texan has pursued the vision of a more equitable Texas for forty years. Recognizing that too many Texans face barriers to the conditions they need to thrive—quality health care, education, and jobs—we strengthen public policy to expand opportunity and equity for every Texan. Join us for **Legacy** on **October 30, 2025** to continue building a bridge from policy to the people.

This year, **Legacy** brings Every Texan's trusted analysts together with expert partners for a day of policy talks aimed at strengthening the roots of public policy. We'll close the day with a public celebration of our partners and community!

For 40 years, Every Texan has researched policy and analyzed data to reimagine and propose what's possible for our state. Texans across the state rely on us for our data expertise, the unique relationships we cultivate with policy makers across the political spectrum, and the coalition power we help build through credible policy work.

Our mission to strengthen public policy has never been more vital. We're well-positioned to sound the alarm on harmful policy, providing accurate, full-scope research and analysis that drives informed advocacy and decision-making from neighborhoods across Texas to the capitol. We work to ensure that every Texan, including those navigating systemic barriers and a kaleidoscope of needs, are represented when and where critical policy choices are made.

As we meet this moment together, Texans can continue to rely on the expertise, pragmatism, and unvarnished truth Every Texan is known for. Join us in continuing our legacy.
